HTML,CSS,JavaScript,PHP,Swift

User Experience Skills

Adaptability

Database Management

Created Canteen System for Photos Fotiades Group

Created a customized canteen system based on the Fotiades Canteen Personell's needs. The system helps employees to order food daily, and the canteen to prepare food without any waste.

2020

Created Fight Air Pollution

A platform for the Dali community to report air pollution by the toxic factories nearby, Assisting in the gathering of data for the protest for the factories to be relocated. The data is then used to generate a heatmap to show the intensity of toxic air smell on a regional map, using 2GIS and Google Maps API

2020

Website Creator for TedXEnglishSchoolNicosia Event

2020

Creator of Chain Of Change Platform at The English School Of Nicosia

Formed a platform where students can donate online to various donation campaigns since the outbreak of covid-19 does not allow cash. Raising over €2,000 within 3 months!

2020-2021

Hosted Joti-Jota Events at 82 Agion Oimologiton Scouts through The English School Radio Club

Joti-Jota is an international scouts event taking place online and over the air. Through Radio Club's resources, I've hosted 3 times Jamboree on the air, making contacts across Cyprus, and the rest of the world

2017 — 2020

Competitions

Hack Cyprus Hackathon at Cypriot Enterprise Link

TakeYouTakeMe, an Uber-like service where people could share rides.

2014

Hack Cyprus Hackathon at Cypriot Enterprise Link

NoWait!, A platform made to order food within the restaurant, making lives easier and more efficient for waiters

2016

CTO - Eco Hang at Junior Achievement Competition

Part of Eco Hang creating biological cloth hangers made from biodegradable glue and recycled paper. Ended up in the top 10 finalists in Cyprus. I created the website and an ordering app. Also outsourced the idea, hiring young people to make hangers to boost production.

2017 — 2018

CanTeens at Teke Competition

Competed as CanTeens and pushed the idea through the national competition Teke. An app to preorder food from the canteen

2017 — 2018

AngelHack Hackathon Runner-Up at AngelHack

Won the runner up position at AngelHack's Hackathon which took part in Limassol, allowing us to participate in a global 12-week business accelerator cohort, competing against 59 other teams for a position to San Francisco to participate in a week of pitch training and the Global Demo Day to pitch in front of investors at Silicon Valley

2018

CEO - CanTeens at Junior Achievement Competition

Created CanTeens app and website, ending up in 2nd Place on the Junior Achievement national competition

2018 — 2019

CTO - Ciclo at Junior Achievement Competition

Ending up 3rd place in the JA national competition and receiving commendations from the President of the Republic Of Cyprus. Mr. Nikos Anastassiades. Proudly Representing The English School Of Nicosia

2019 — 2020

Award Winner at Digital Championship

Receiving the 1st Prize of the Digital Championship by the Minister of Education. For the project Renty, a platform for customers to rent out unused equipment and appliances for short periods.

2020

Participated in Bridges Of Solidarity Hackathon

Creating LePontCy, aiming to find solutions for the Beirut Explosion in August 2020, creating a platform for people in Beirut to list their demands so that people worldwide can donate

2020

🏢 Internships

Customer Acquisitions Internship at Trophies

a US-registered startup focused on video games trading. Intern for getting user feedback and customer support.

2016 — 2017

Web Developer Intern at Tabs And Spaces

A creative agency in Cyprus that develops and maintains technology platforms for some of the industry leaders in the country.

2018
